Handout: Jabberwocky for Two

Student 1:

'Twas brillig and the slithy toves
Did gyre and gimble in the wabe:

Student 2:

All mimsy were the borogoves
And the mome raths outgrabe.

Both together:

Beware the Jabberwock, my son!

Student 1:

The jaws that bite!

Student 2:

The claws that catch!
Beware the Jubjub bird--

Both together:

And shun the frumious Bandersnatch!
One, two! One, two!
The vorpal blade went snicker-snack!

And through and through

Student 2:

He left it dead!

Student 1:

And with its head

Both together:

He went galumphing back!

Worksheet: Jabberwocky Fill in the Blanks

Some of the words in “Jabberwocky” are real words. Other words are nonsense words that Lewis Carroll created.

At least one of his nonsense words, *chortle*, is now a word that's used today.

1. A *chortle* (n.) or *to chortle* (v.) is a combination of two words. Which two words do you think Lewis Carroll used?

$$\frac{\text{1st word}}{\text{1st word}} + \frac{\text{2nd word}}{\text{2nd word}} = \text{chortle}$$

2. Below is the first stanza of “Jabberwocky.” What do you think the words in bold mean? Write your definition above the word. Be sure to note if the word is a:

noun (n.)
verb (v.)
adjective (adj.)
adverb. (adv.)

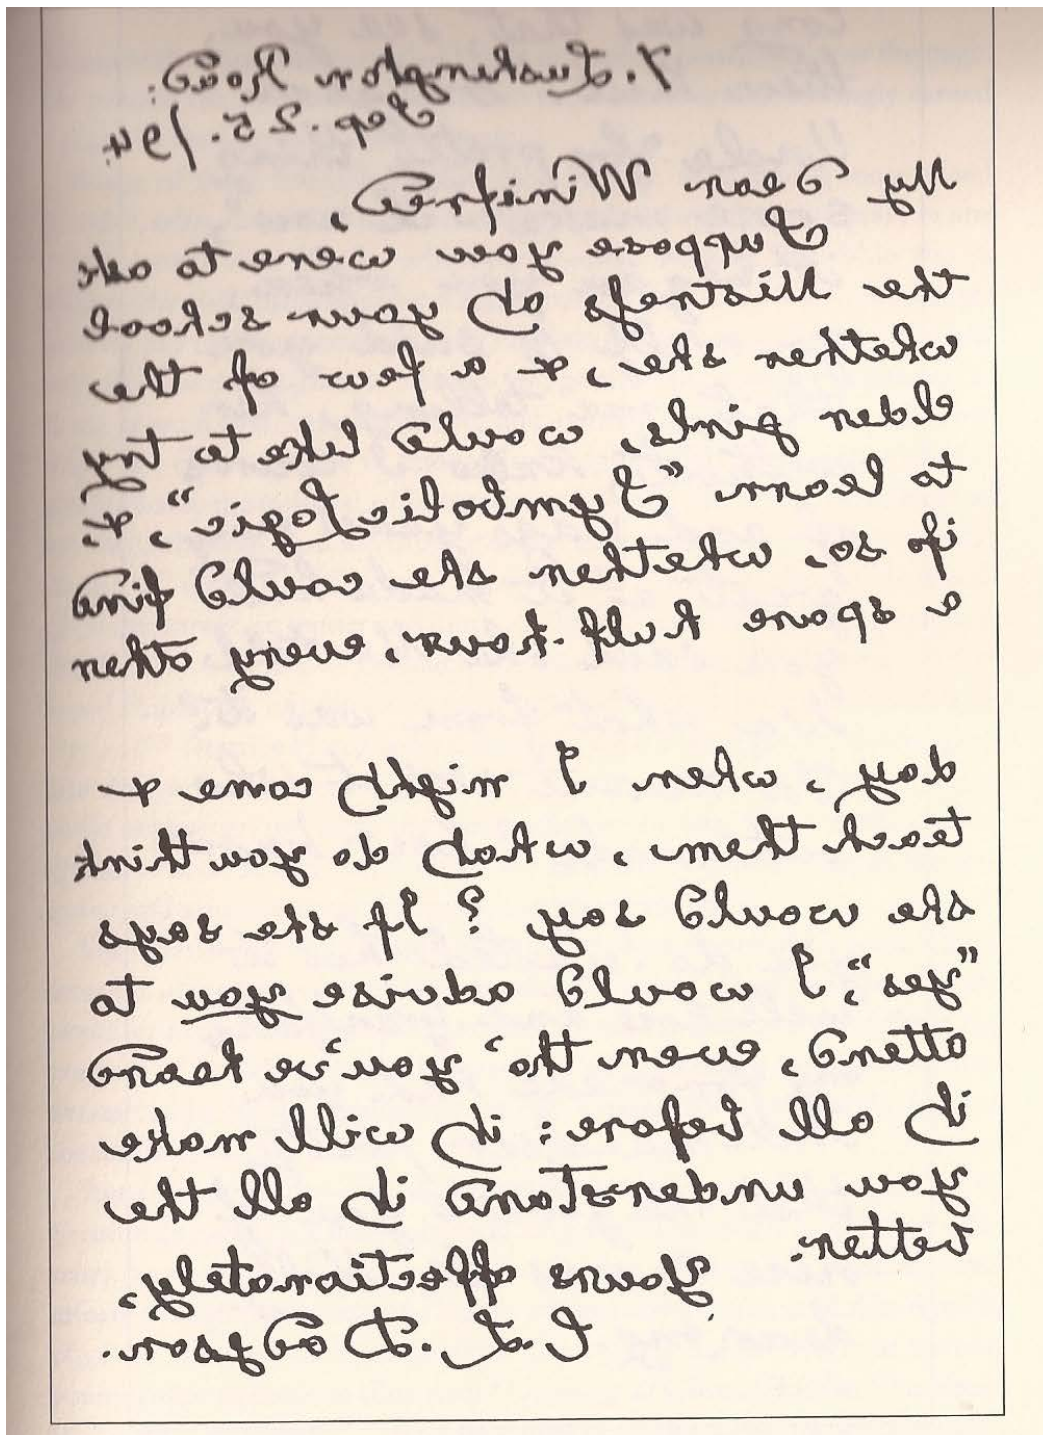

'Twas _____, and the _____
brillig *slithy* *toves*

Did _____ and _____ in the _____:
gyre *gimble* *wabe*

All _____ were the _____,
 mimsy *borogoves*

And the _____ *mome* _____ *raths* _____ *outgrabe*

My Dear Winifred,
Suppose you were to ask
the Mistress of your school
whether she, & a few of the
elder girls, would like to try
to learn "Symbolic Logic", &
if so, whether she could find
a spare half-hour, every other

day, when I might come &
teach them, what do you think
she would say? If she says
"yes", I would advise you to
attend, even tho' you've heard
it all before; it will make
you understand it all the
better.

Yours affectionately,
C. L. Dodgson.

The musical score is written for a male soloist (M) and piano (Pno.). It consists of four systems of music. The first system (measures 41-43) features a vocal line with lyrics 'wind hit my face I hit free - dom, and the air full of sea salt and' and a piano accompaniment. The second system (measures 44-46) continues the vocal line with 'pride. It was me and my crew, and at that point I knew the' and piano accompaniment. The third system (measures 47-49) shows the vocal line ending with 'o - cean is where I'd re - side.' followed by a '(dialogue)' section where the piano plays a rhythmic pattern. The fourth system (measures 50-52) continues the piano accompaniment with a sustained bass line and chords in the right hand.

Worksheet: Help Lisa Simpson Plan the Costumes for *Alice*

1. An actor might need to try on as many as 6 pairs of shoes before he or she finds the right pair to wear. If Alice tried on 6 pairs of shoes, the White Rabbit tried on 5 pairs of shoes, the Mad Hatter tried on 6 pairs of shoes, and Tweedle Dee and Tweedle Dum each tried on 3 pairs of shoes, how many pairs of shoes did they try on?

2. Tweedle Dee and Tweedle Dum are identical twins, and they'll wear identical costumes. Lisa's design for Tweedle Dee and Tweedle Dum includes a shirt, vest, jacket, pants, tights, a pair of shoes, and a hat. Lisa buys 2 yards of fabric for each shirt, 1 yard for each vest, 3 yards for each jacket, 3 yards for each pair of pants, 1 yard for each hat. Fabrics costs \$2.50 a yard. Each pair of shoes costs \$7, and each pair of tights costs \$2.

a. How many yards of fabric did she buy?

b. How much did she spend on fabric?

c. How much does fabric, shoes, and tights cost?

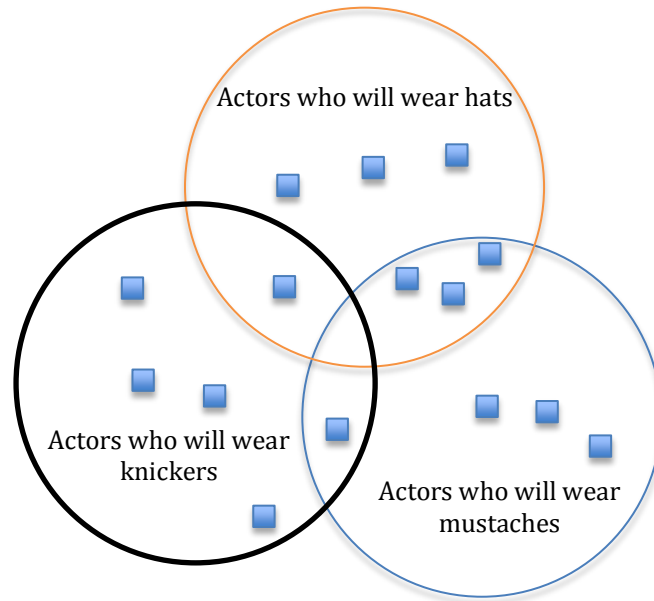

3. Lisa needs a lot of coffee to stain her white costumes. The Wheelock Family Theatre coffeemaker makes only 6 **cups** at once, so she buys coffee from Dunkin' Donuts.

The Dunkin' Donuts carton contains ten 10-oz **servings**. Lisa buys 2 cartons.

a. How many **cups** (not *servings*) does each box contain?

b. How many times would Lisa need to make coffee to equal 2 cartons?

Venn diagram:

4. How many actors will wear mustaches and hats?
5. How many actors will wear knickers, mustaches, and hats?
6. How many actors will wear knickers and either a mustache or a hat?

7. Uh oh! Wheelock Family Theatre loses electricity while Lisa is making a hat with a feather. Lisa reaches into a drawer—in the dark—to pull out a black feather. How likely is it that she'll put out a black one?

- a. Certain
- b. Probable
- c. Unlikely
- d. Impossible

8. Lisa has been designing and sewing clothes and costumes since she was a child. (She can actually cut fabric faster than she can take a costume apart.) If she can cut 3 yards of fabric in 30 seconds, how many yards can she cut in 4 hours?

9. Lisa needs 480 yards of fabric to make Alice's costume. How long will it take her to cut 480 yards of fabric if she cuts 3 yards in 30 seconds?

10. Lisa is planning the hats for the actors to wear. She can sew, buy, or rent any of the hats. Each hat will be made of cotton, wool, polyester, fur, or feathers. How many different combinations are possible? (For example, a sewn polyester hat, or a rented wool hat.)
